

“LEADING STORAGE TANK MANUFACTURER ONSET WITH MICROSOFT DYNAMICS NAV

BESTANK Manufacturing Corporation is the best and leading company which manufactures stainless steel and polyethylene water storage tanks (other products include water pumps and the like). The company has never stopped trying to expand its product line by venturing into the construction industry with products like stainless steel kitchen sinks, PVC doors, lock sets, water filter, air compressor and more. Incorporated in 1979 and since then it has been known as one of the best and leading manufacturer in the field of polyethylene (PE) plastic and stainless steel water storage tanks. The company prides itself in being an aggressive firm. They have also expanded their product line by including more than 100 products in order to complete with the wide range of plumbing and construction products.

March 5, 2010 marks the partnership of Infsoft International Solutions Inc. and BESTANK Manufacturing Corp. as they onset with Microsoft Dynamics NAV. This is to achieve their primary objectives of increasing productivity, improving visibility, reducing administrative overhead, IT and accounting cost. They believed that Microsoft Dynamics NAV can also address their requirements for retail consignment, warehousing and manufacturing

Microsoft Dynamics NAV gives the freedom to focus on business by providing an efficient way to streamline business and increase productivity. Microsoft Dynamics NAV replace existing system with a single fully integrated solution that connects everyone in an organization to the customers, suppliers, and partners through the Internet anytime, anywhere. This is combined with customized services and Microsoft Dynamics Certified consultants of Infsoft International Solutions Inc.

The onset was held at the BESTANK main office in Valenzuela City attended Mr. Ainsley Tai – General Manager with the accounting and IT group of BESTANK.
