

INFOSOFT SHOWS GRATITUDE THRU A “THANKSGIVING DAY” FOR THEIR VALUED CLIENTS

Infsoft International Solutions Inc. had been in the business for almost nine years and this is because of its clients who continually patronize the solutions and professional services they cater. And to get hold of this trust, Infsoft organized a “**Thanksgiving Day**” last **November 19, 2009** at the **Microsoft Head office in Makati** for their current clients from different industries. It was a day specifically planned to show gratitude to its clientele who always believed in Microsoft Dynamics Solutions and Infsoft as their preferred partner thru the years.

Headed by **Ms. Anna Racelis – EA Sales Supervisor** and **Ace Celeste – Sales and Marketing Associate** of Infsoft, the “Thanksgiving Day” was made with different activities, games, raffles, giveaways and product updates for its clients. During the earlier part of the program, an AVP was presented communicating Infsoft’s message of gratefulness to everyone. It was then facilitated by the Dynamic hosts of Infsoft no less than **Ms. Ivy Tarobago- Support Manager** and **Ryan Paolo Aquino – Project Manager**. Microsoft Dynamics updates and inspiring messages were given by **Ms. Quennie Malayang – Partner Account Manager** and **Ms. Lyn Reyes- Business Lead from Microsoft**. The crowd was then serenaded by an acoustic band which made them sing and jive with the music. As the program goes further, **Ms. Zenddie Cueto- delos Reyes – Asst. Manager- Finance and Administration of Pan Pacific Manila** and **Mr. Dennis Sobrepena – Applications Administrator of Splash Corporation** shared their experience on having Microsoft Dynamics GP as their software solution and Infsoft as their reliable partner. As the program closes, certificates and token of appreciation were given.

Infsoft always looks back to its clients and thru this “**Thanksgiving Day**”, it always upholds its commitment of providing “**Software that fits your Business**”. For Infsoft’s new and upcoming clients, it will continue to provide software solutions for their unique business needs. And to its existing clients, Infsoft is always willing to serve with great gratitude and a big smile.
